### **MOSHI'S SMALLER AND CUTER MINI VOICE CONTROL ALARM CLOCK NOW AVAILABLE**

*Classic voice control alarm clock features combine with compact size to listen to users' every command*

**Woodland Hills, CA (PRWEB) August 4, 2009** -- In the wake of the highly successful Moshi Classic Voice Control Alarm Clock, the Moshi Mini Voice Control Alarm Clock is now available for purchase. Small enough to fit in the palm of your hand but big enough to personalize the individual sleeping experience, the Mini VC Alarm Clock continues the history of customization and comfort for which Moshi is known.

Activated by tapping the LCD screen, the Moshi Mini Voice Control Alarm Clock will politely respond with "Command Please," allowing the user to choose any of the ten voice activated commands, which include:

- \* Setting the alarm
- \* Asking for today's date
- \* Playing sleep sound
- \* Hearing today's temperature

The Moshi Mini Voice Control Alarm Clock is for anyone looking for the added convenience of interacting with a clock that is compact and responsive to commands. No pre-programming is required - the Moshi Mini works straight out of the box and is capable of understanding most all user voices, from young children to seniors.

## **About Moshi**

Moshi specializes in interactive voice recognition technology that is applied to consumer electronics, primarily alarm clocks. Our voice-activated alarm clocks, equipped with Technology That Listens™, are made personally for our customers. They listen to your every command, whether you are setting the alarm from your bed or asking the temperature from the closet.

Moshi is guided by the belief that electronics should work for you and not against you. Just talk to your clock and it will listen, as all electronics should. Moshi products cater to the fundamental needs of children, adolescents, adults, and seniors alike. Our customers look for fresh, unique and innovative products that provide efficiency and comfort to their lifestyle.
